

Environmental Club

1. Goal

- a. Providing a common platform to interact with the students and teachers on environmental issues.
- b. Helping a lot in spreading and disseminating environmental knowledge.

2. The Context

- a. EC is a forum meeting requirement of safe and clean drinking water, solid waste management, Industrial pollution, Hospital waste management, Hazardous wastes, and their environmental issues.

3. The Practice

- a. EC is constituted with the objectives to educate students about their immediate environment and impart knowledge about the eco-systems, their Interdependence and their need to survival by involving them in various environmental activities through visits, and demonstrations and to mobilize youngsters by instilling in them the spirit of scientific inquiry into environmental problems and involving them in the efforts of environmental preservation.
 - i. An Eco-club may be set up in the college by the members, particularly interested in the conservation and protection of the environment.

4. Evidence of Success

- a. The Seminar on "Recent Trends in Environmental Awareness" was conducted on 18.09.2014. The feedback from students of all branches was obtained. The results indicate that the students are equipped with the knowledge on damage of environment and concern about saving the environment.
